

For the prevention and cure of
ILLIOUS and MALIGNANT FEVERS
is recommended

H.N.'S ANTI-BILIOUS PILLS
THIS Medicine has been attended
to a degree of success highly gratifying
the inventor's feelings in several parts
of the West Indies and in the Southern
Middle States, &c.

The testimony of a number of persons
be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
in favour of a medicine than can
be of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
seemed desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
safe, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
stomach—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

fection is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

and chronic rheumatism, gout, rheumatic
gout palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedi-
ly removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion.

So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.

the eyes, whether the effect of nature
weakness or of accident.

most severe instances.

Proposals

FOR Publishing by Subscription, and
now ready for the press, a series of
historical volumes, which when finished
will assume the title of
Universal History Americanised;
Or, an historical view of
Europe, Asia, Africa and America,
from the earliest records to the nineteenth
century—with a particular reference to
the state of society, literature, religion,
and form of government in the United
States of America.

BY DAVID RAMSAY, M. D.
“Life is so short and time so valuable,
that it were happy for us if all great
works were reduced to their quintes-
sence.”
Sir William Jones.

PROSPECTUS.

THE Asiatic part of this work contains
a general view of the antediluvians—of
the general deluge—of the re-settlement
of the Globe after that great event—of
the primitive postdiluvian nations which
were formed in Asia, the cradle of the
world. Their various ramifications, re-
volutions, and of the general course of
Empire.

AFRICA.
The African part, contains a concise
history of Egypt, Ethiopia, Numidia,
Mauritania, Abyssinia, of the Piratical
States, and the Hottentots, with a group-
ed view of its uncivilized settlements.

EUROPE.
The European part, contains the history
of Greece and Rome, from their
origins to their dissolution—of the various
nations which were conquered by them—
and of the nations by which the Romans
themselves were finally conquered, and
of the nations which were formed from
the fragments of the Roman Empire, and
the various revolutions of the latter to-
gether with a view of the nations which
never were subjected to the Romans.

AMERICA.
The American part, contains a general
history of the Western continent, under
the heads of Free, European, and Abor-
iginal or unconquered America. The
first contains a history of the United
States, from their first settlement as
English Colonies, till the present time.
The second, of all parts dependant on
Europe. And the third, of all that are
till owned by the Aborigines.

It is expected that the whole will be
comprised in 10 or 12 octavo volumes,
of between four and five hundred pages
each—to be printed in Philadelphia,
on good paper and fair types, for \$3
1-3 per volume, in sheep binding, or
\$4 1-3 Calf Gilt, to be paid for on deli-
very.

AUTHORITIES.

This work has been in contemplation
upwards of 40 years. The project of
it was conceived in 1786, on reading the
Universal History, then recently edited
in 60 volumes, by a society of gentlemen
in England. The original idea of ex-
tracting the quintessence of that vo-
luminous work, which contained the
most complete system of history the
world had then seen, has ever since
been enlarging and improving by an
attentive perusal of the histories writ-
ten by Robertson, Hume, Gibbon, and
other modern authors—of the Asiatic re-
searches—of the works of Sir William
Jones, and other noted Orientalists—the
publications of intelligent travellers,
who, in the course of the last half cen-
tury have explored almost every region
of the Globe. These collectively have
thrown a blaze of light on countries com-
paratively unknown, and on portions
both of ancient and modern history which
were confused and obscure at the period
when the writers of the **Universal History**
published their work. The arrange-
ment of materials collected from these
sources commenced in the year 1788;
when, in consequence of the surrender
of Charleston to Sir Henry Clinton, the
author was suddenly released from a sea
of business and sent as a prisoner of war
to the British Garrison then in St. Au-
gustine, and there confined for eleven
months, without any peculiar employ-
ment. Steady progress has been made
for the last ten years in correcting and
transcribing the work for publication.

UNITED STATES.
The History of the United States is
given in full length—that of foreign coun-
tries is more or less expended or con-
tracted in proportion to the intrinsic im-
portance of each—its tendency to illus-
trate portions of Holy Writ—the Greek
and Latin Classics—and also in proportion
to its connexion with the U. States,
or as furnishing useful practical infor-
mation to its citizens, or as the paternal
soil of their ancestors.

The above sketch of the nature and
objects of this immense work, which has
occupied the attention of the Author for
upwards of 40 years, was found among
his papers, and is now given to the pub-
lic in his own words. Since that period,
a few chapters have been added by the
Reverend SAMUEL STANHOPE SMITH.

which brings it down to the close of the
last war.
The publication commences with a
third impression of the History of the U.
States, in three volumes, which is all that
has ever appeared. The whole will not
be delivered under 18 or 20 months. It
is proper to state, that the gentlemen
who have the direction of it are neither
booksellers nor printers, and receive no
pecuniary consideration for their trouble
—but are willing to make the necessary
advances to carry it into execution pro-
vided the sale is warranted by public pa-
tronage. The profits arising are to be
appropriated for the support and educa-
tion of his children, four of each sex; to
them its success is a matter of deep im-
portance.

THE FLOWERS OF LIFE.

Though I find not a rose, I indulge not
in borrow,
But pluck with contentment a daisy
to-day;
Nay, even a sprig will feed hope for the
morrow,
The humblest that nods to the zephyr
of May.

From the N. York Evening Post.

Be just, before you are generous, said
the sage Confutze, to the council of Man-
darines, who were about to delegate on
the claims of the Chinese, who erected
the great wall—No, said the Mandarin,
it will take too much time to look into
the merits of the workmen's petition, too
much time to adjust their pretensions,
and to look up the musty records of their
services; and if you begin by doing jus-
tice to the laborers, you can't stop there;
you must go on to those who furnished
materials, provisions, and the Janontong-
pas know what all!—O mother of the
emperor! what a door will be opened by
that foolish attempt to do justice!—No, it
will take more time to look into this busi-
ness, with a view to doing justice, than
the council spent in the bribery and cor-
ruption affair of the man of the mountain
of Thibet, and more money than would
suffice for the payment of all our wages,
and fire and stationary for a whole ses-
sion. No, none of your justice, Mr. Con-
futze, but let us be generous—let us give
a pension to every one who worked and
did not work at the wall; to every one
who in fact looked at it for nine months,
while it was building: it was a great
work, and it secured the empire from the
inroads of the Tartars. There are men,
(said a Mandarin with a blue button)
there are men who carried the hod for 7
years, and lived on scarcely any thing
but a gill of Samchu a day—will you
place them on no better footing than the
9 months men? what justice is that?
Justice! I tell you, (replied Honontong-
pas, the little general of the short-legged
division) I tell you we are not here to do
justice, but to be generous—let them all
fare alike, master and servant, tag, rag
and bobtail: we will be generous—gen-
erosity will not be as a precedent—but if
we attempt to do justice, and by rule, O
dragon of China, what a door will be o-
pened! what a calamity! So they gave
the workmen and lookers on each the
same weight of silver.

AN OLD SOLDIER.

"In the midst of life we are in death."
The editor of the Baltimore Telegraph
indulges his fine moral pen in the fol-
lowing appropriate reflections on the
awful catastrophe at Dupont's powder
mill.

"Inspiration has informed us that in
the midst of life we are in death; and in
the midst of such awful dispensations we
feel in all its mightiness the truth of this
passage—but it requires such dreadful
evidence to convince our fellow beings of
the truth of their own mortality: we for-
get that we are at the present moment
walking upon our graves—that while the
sensible and warm body is engaged in
committing to the tomb the cold and life-
less corpse, death stands beside the grave
and whispers to the surviving mourners,
prepare to become likewise the subjects
of my empire of dust and ashes; the dy-
ing are now summoned to bury the dead.
When we see some extraordinary agent
in motion beyond the power of human
strength or of skill to resist, we tremble
and sink into our own insignificance;
when we behold the billows of the ocean
dashed into fury by the winds, or a state-
ly city red with the beams of conflagra-
tion—when we witness the passage of a
thunderbolt through the firmament—or
the silent march of an earthquake over
our continent—e tremble with fear and
prostrate ourselves in the dust—we sym-
pathize with those who have fallen the
victims.—It requires all this evidence to
convince man that he is mortal."

Wednesday, April 8, 1818.

A military bill engrossed the greater
portion of yesterday's deliberations in the
house of representatives. The reduction
of the staff and the substitution of a com-
missariat, instead of our usual mode of
subsisting our armies, were the leading
objects of it. On motion of Mr. Colston,
the bill was so amended as to reduce the
discharge of the judge advocate officer
from two persons to one. On the subject
of a commissariat, some conversation en-
sued, much of it of a very sharp and se-
vere kind, on the general conduct of con-
tractors. It was said that the far greater
part of the mortality that took place in
our armies in the late war, was occa-
sioned by the frauds of contractors. In-
stances were mentioned sufficiently abom-
inable to make the hair of a man of ordi-
nary feeling stand erect.

If half what was said be true, and I
see no earthly reason to doubt it, not
Cartouche, the famous French robber, nor
his still more sanguinary countrymen,
the patriots of the French revolution—
not Robespierre, Danton, Jean Bon St.
Andre, or any other of that host of cos-
mopolitan philanthropists, have gone to
the earth with viler sins upon their heads
than will some of our contractors, when
it shall please God to make them, for the
first time, feel. General Desha made a
strong opposition to the appointment of a
commissariat. The bill, however, was
ordered to be read a third time.

The bill appropriating money for the
public buildings, and for furnishing the
president's house, was read a third time.
—As it was proceeding to be passed, Mr.
Herrick moved to recommit it in order to
strike out the appropriation for commen-
cing the centre building of the capitol.—
On this motion the question was taken by
yeas and nays and negatived—85 votes
being against—53 in its favor.

John Tierman was executed at Pitts-
burgh on the 25th of March, for the mur-
der of Patrick Campbell. The criminal
confessed, "that being fired with revenge
he did deliberately kill the deceased."

Col. Melville, an officer of the staff of
General Mina, arrived at Savannah on
Thursday last. He contradicts the state-
ment of the execution of the general, and
was on his way to the seat of government
for the purpose of disproving the Spanish
official bulletin which announced that event.
Col. Melville left him and his af-
fairs, nearly a month subsequent to the
period of his reported execution, in a
most prosperous condition.—He was at
the head of an army of 5000 men.

[Charleston Times, April 1.

Extract of a letter from an officer of the
United States army, to his friend in
Mobile, dated

Apalachicola Bay, Jan. 14.

Our difficulties are just commencing;
the Indians are more hostile than ever,
and have assembled in larger numbers
than heretofore, lining the whole distance
of the river; we shall have consequently
to fight our way up to Fort Scott; the
last vessels that ascended lost several
killed and wounded. A guard has this
evening joined us, commanded by Capt.
Cumings, and we shall move immedi-
ately on up the river. He left Ft. Scott
on the 10th inst. There has been no en-
gagement since the last accounts you
have received. He informs me that all
communication by the land side with the
Fort is cut off, being completely surround-
ed with Indians, so that our only access
to it is by way of the river, and that very
precarious. The two last expresses
were cut off, and their papers all destroyed.
The militia have not yet joined.—
What adds to the unpleasantness of our
situation is, that they are short of provi-
sions, and the two vessels we expected to
have met have not been heard of. There
is some reason to fear that they have at-
tempted to pass up the river and have
been cut off.

The following are copies of letters from
Don Pedro Gual and general Arto to
commodore Henley and colonel Bank-
head, on the former leaving the island
of Amelia.

Fernandina, Jan. 11, 1818.

GENTLEMEN.—Being on the point of
leaving this place for South America, I

avail myself of this opportunity to return
to you my thanks for your personal kind-
ness to me and my fellow citizens ever
since your troops took possession of this
island. On the misfortune which they
have been compelled to endure, it has
certainly been of great relief that the ex-
ecution of the order of your government
was confided to so worthy characters as
you—the remembrance of your humane
personal deportment shall be forever im-
pressed on our minds.

I must confess to you I leave with re-
gret the United States of America, for
whose prosperity I have constantly made
my most ardent vows to Heaven—a na-
tion like yours, whose political institu-
tions are calculated to redeem mankind
from bondage and servile submission,
cannot be too well appreciated. What
ever may be the policy of your adminis-
tration in regard to us, or the situation
of our respective countries in the time to
come, I shall be always proud to see in
the same hemisphere where I was born a
virtuous people of brethren, happy, free
and independent.

As to yourselves, gentlemen, it will
give me a particular pleasure to attend to
your commands, or be useful at any time
to you and your friends.

I remain, gentlemen, with great respect
and esteem, your most obedient,

PETER GAUL.

To J. D. Henley, esq. &c. &c. &c.

Jas. Bankhead, esq. &c. &c. &c.

Fernandina, March 1, 1818.

Colo. L.—Allow me, before leaving
Fernandina, to manifest to you my sin-
cere acknowledgements of gratitude for
the manner in which you have acted
towards me since you took the command
at Amelia. It will remain engraved on
my mind.

Should events ever take you to any
part of South America where I should be
ever, where I could be of any utility to
you or your friends, I beg you will free-
ly dispose of me—it will be gratifying to
me to have an opportunity of proving the
esteem with which I have the honor to re-
main

Your obedient servant,

AURY.

To col. Jas. Bankhead,
Fernandina.

Fernandina, March 1, 1818.

Commons.—Allow me, before leav-
ing this place, to manifest to you my sin-
cere acknowledgements of gratitude for
the manner in which you have acted
towards me since your arrival at Amelia.
It will remain engraved on my mind.

Should events ever take you to any
part of South America where I should be,
or where I could be of any utility to you,
I beg you will freely dispose of me, as
well for your friends. It will be gratify-
ing to me to have an opportunity of pro-
ving the esteem with which I have the
honor to remain

Your obedient humble servant,

AURY.

To com. J. D. Henley,
U. S. ship John Adams.

New York, April 4.

ELEPHANT.

The elephant, which has been some
time exhibited in this city, started from
Brooklyn last evening to go to Flatbush;
but by some means became irritated and
unmanageable, and broke from her keep-
er, and at midnight was roaring among
the gardens—destroying fences, and ex-
hibiting astonishing proofs of agility and
power. We are gratified in being able
to add, that she showed no disposition to
injure persons, and submitted to com-
mand yesterday morning without having
received injury.

GOVERNOR CLINTON.

We regret to learn, says the Albany
Daily Advertiser of Thursday, that his
excellency the governor yesterday received
a fall and dislocated his left knee.—
We understand that no bones were in-
jured, altho' his excellency will doubtless
be confined for some time.

LATEST FROM NEW ORLEANS.

By the arrival this morning of the brig
Hope, Capt. Arnold, in 17 days from N.
Orleans, we have received the papers of
that city to the 16th ult. inclusive.

Capt. Arnold informs us, that the schr
Enterprise, of Boston, on her passage
from Turin Island, was wrecked about the
8th of March on South Point about 9
miles below the Balize. The vessel and
crew were entirely lost; the captain and

A Spanish government brig, captured
by the Buenos Ayres privateer, Union,
sitting out as a privateer at the Balize.
Considerable excitement prevailed in
New Orleans, in consequence of the
treatment experienced by some hundreds
of Swiss and German peasants who had
just arrived in three Dutch ships, and
who had been sold to raise the money

due for their passage. We shall give in
our next some extracts from the papers
on this subject.

FROM BARBADOS.

By the arrival yesterday afternoon of
the British brig Gen. Brock, Capt. Dwy-
er, in 21 days from Barbados, we have
been politely furnished with a file of Bar-
bados papers to the 18th March.

A Barbados paper of March 2d, says,
"We learn that his excellency the gov-
ernor has received information from Gre-
mada of the success of the Spanish roy-
alist, who were in possession of all the
provinces of Venezuela, except Angas-
tura, or rather Guiana, the provinces
which were represented as tranquil."

WEALTH OF LOUISIANA.

A Milledgeville paper says, that ne-
groes on the sugar estates of Louisiana,
are worth from 600 to 1000 dollars year-
ly—and the sugar crops are worth from
20 to 150,000 dollars a year. Sugar land
close to the city, sells for 5000 dollars an
acre, and no sugar land sells for less
than 800 dollars an acre.—Mechanics of
all descriptions soon grow rich. Decent
board is from 40 to 60 dollars pr. month,
but claret is allowed to be used with dis-
cretion without any extra charge; house-
rent is high, and even naked lots on the
front street, 60 feet rear, rent for 3 dol-
lars a foot per month. The American popu-
lation is increasing, and already bal-
ances the French in the legislature.—
That there is a vast field open for persons
fond of public life; as the croles are a-
verse to it and the state pays her officers
better than her sister states.

The governor has 7500 dollars a year;
judge of the supreme court 5000 dollars;
inferior judges in the city 4000, and those
in the country 1500 and 2000; yet these
salaries are insignificant when compared
to the profits of a cultivated farm.

These amounts appear enormous; yet
they must be great. If the West-India
sugar planters can live by their business,
those of Louisiana must soon grow im-
mensely rich. It is not understood that
our sugar lands are less productive than
those of the West-Indies, and the duty
that we levy on the imported article acts
as a bounty equal to, perhaps, nearly a
third of the amount received for it by the
West-India planter in favor of our own.
As the cultivation rises to meet the de-
mand for consumption, this duty should
be reduced. It is too heavy; for sugar,
a very considerable part of our popula-
tion, is a real necessary of life.

Alex'a. Common Council.

AN ACT

For the inspection of fish in the town of
Alexandria.

Section 1. Be it enacted by the Com-
mon Council of the town of Alexandria,
That there shall annually be appointed
one or more inspectors of fish for the
town of Alexandria, who shall, previous
to his or their entering upon the duties of
his or their office, make oath or affirma-
tion that they will carefully view, inspect
and examine all fish brought to the town
of Alexandria, or put up therein for sale,
barter or exportation, to the best of their
skill and judgment; and shall moreover
give bond with one or more securities to
the satisfaction of the mayor in the sum
of five hundred dollars, conditioned for
the faithful performance of the duties of
said office, and shall keep an exact ac-
count of the number of barrels or other
casks of fish by him or them inspected,
and once in every year make a return
thereof to the mayor, who is to cause the
same to be published in one or more of
the newspapers of the town.

Section 2. And be it further enacted,
That all salted fish in barrels or other
casks brought to the town of Alexandria,
or put up therein, for sale, barter or ex-
portation, shall be packed in such casks
as the inspector may judge merchanta-
ble, sound, and fit for exportation, tight-
ened with at least twelve good and suffi-
cient hoops, nailed with at least four
nails in each chime hoop, and four nails
in each upper bilge hoop, sufficient in
every respect to hold pickle, and of the
following dimensions to wit: the length
of the staves of each barrel twenty-eight
inches, and the thickness thereof not less
than five eighths of an inch, the diameter
of the head not less than seventeen in-
ches, and the thickness thereof not less than
five eighths of an inch, the same to be
dowled; the bilge diameter to be not less
than twenty inches from out to out, and
the chime not to exceed one inch in
depth; and each and every barrel con-
taining fish packed in the manner herein
required, and which shall be sound and
merchantable, and in all respects fit for
exportation, shall be branded on the head
by the inspectors with brands to be by
him or them provided for that purpose, at
his or their own expense, the words
"Alexandria Herrings," or other fish, as
the case may be, with the date of the
year when the same were inspected, and
with No. 1 or 2, according to the quality,
that is to say, fish of the first quality shall
be branded No. 1, and those of an inferior
quality No. 2—neat herrings to be brand-
ed with the letter N, and gross the letter
G; and in addition to which, all fish of
superior quality, contained in good bar-
rels made of seasoned white oak staves,
and of the dimensions aforesaid, contain-
ing at least fourteen good hours, shall be
branded with the word "Prime;" and
no inspector shall brand any barrel of

other cask of fish which he may think
sound or unmerchantable, or with-
out having previously faithfully exam-
ined and inspected, and the casks not in
conformity to this act, but shall cause the
same to be marked on the bilge with the
broad arrow; and if any inspector shall
pass or brand any barrel or other cask of
fish unsound, unmerchantable, or not in
conformity to this act, he or they shall
forfeit and pay for each barrel so brand-
ed the sum of not exceeding five dollars
than two dollars.

Section 3. And be it further enacted,
That when any person shall think that
he is aggrieved by the judgment of the in-
spector or inspectors, such person may
apply to the mayor, who shall select three
disinterested persons, well skilled in the
goodness, quality and well curing of
fish, to review and examine the same,
which said three persons, after having tak-
en an oath or affirmation as reviewers,
shall carefully review and examine the
same, or if they, or any two of them, shall
declare the same to be sound or merchanta-
ble, then, and in such case, the said in-
spector shall erase the broad arrow and
put such brand upon the cask containing
said fish as they or any two of them may
adjudge and determine.

Section 4. And be it further enacted,
That it shall not be lawful for any person
to ship or lade on board of any vessel for
exportation any cask of fish marked with
the broad arrow, or to sell, ship or lade
on board any ship or vessel for exportation
any barrel or other cask of fish not ex-
amined and branded as aforesaid, un-
der the penalty of five dollars for each
and every cask so exported or sold, or
attempted to be exported or sold; nor
shall it be lawful for any person or per-
sons to purchase or sell within the town
of Alexandria any such cask not pre-
viously examined and branded as aforesaid,
under the penalty of five dollars for each
and every cask so sold or offered for
sale, or purchased within the said town.

Section 5. And be it further enacted,
That the inspectors shall not purchase
directly or indirectly any salted fish for
him or them condemned, or any fish
whatsoever, other than for his own family
use; nor shall he or they be directly or
indirectly concerned in making, vending
or finishing any cask or casks for the pur-
pose of packing, repacking or curing any
fish brought to, put up in, or exported
from the town of Alexandria; nor shall
he or they be concerned in the cooping of
any cask containing fish, inspected as
aforesaid; nor shall he or they vend any
salt for the curing or salting of any fish
inspected as aforesaid, under the penalty
of five dollars for each offence.

Section 6. And be it further enacted,
That if any person shall alter, erase, or
deface the mark or brand of the inspec-
tor upon any barrel or other cask, or shall
mark or brand any barrel or other cask
of fish which hath not been inspected
with any mark or brand similar to, or in
imitation to the inspector's mark or
brand, or after the said inspector shall
have passed any barrel or other cask of
fish as merchantable, shall pack into the
cask which contains the same any other
salted fish, or after any barrel or other
cask of fish shall be marked with the
broad arrow, shall unpack and repack
the same into other casks or packages
for exportation or sale, such person or
persons shall forfeit and pay for each and
every offence the sum of twenty dollars.

Section 7. And be it further enacted,
That all casks of salted fish put up in, or
brought to the town of Alexandria for
sale, shall be inspected, and shall be filled
up by the owner or owners, person or
persons employed for that purpose, and
by him or them repacked, or repickled,
as the case may be, if required so to be
done by the inspector, and in all respects
completed in such manner as he shall
direct for the purpose of having the same
made fit for exportation, and any owner
or owners, person or persons thus em-
ployed, by their refusing or neglecting to
comply therewith, shall forfeit and pay
for each offence one dollar for each bar-
rel; and any herrings or other fish which
shall, upon examination thereof by the
inspector, prove to be falsely packed,
that is to say, the fish in one part of the
cask proves to be of a different kind and
inferior quality from the other, or pack-
ed with any improper or unfit substances,
with intent to defraud, the owner or own-
ers, agent or agents, shall forfeit and
pay for each and every offence the sum
of five dollars.

Section 8. And be it further enacted,
That the said inspector or inspectors may
demand and take for each and every
barrel by them so inspected and brand-
ed the sum of ten cents, and no more.

Section 9. And be it further enacted,
That all and every fine imposed by vir-
tue of this act shall be recoverable with
costs before the mayor, or any justice of
the peace, or by action of debt in any
court of record; one half thereof shall be
for the use of the informer, and the other
half for the use of the corporation.

Section 10. And be it further enacted,
That so much of an act entitled "An act
for the inspection of pork, beef and fish
in the town of Alexandria," as relates
to the inspection of fish, be and the same
is hereby repealed.

Section 11. And be it further enacted,
That all barrels already made, or not less
than the diameter of nineteen inches in
the bilge, shall nevertheless be branded
during the present year, and no longer.

Section 12. And be it further enacted,
That this act shall commence and be in
force from and after the passing thereof.

Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. A number of well taught orderly young men, with good stocks and farming utensils of all kinds and the crops of the present year if desired, will be at the command of the purchaser. Application may be made to the subscriber, living on the premises, next to the post-office at Pleasant Valley, Fairfax. **FRANCIS LIGHTFOOT LEE**, September 19.

French Creek Boarding School.
The following is published for the information of Parents: **HAVING** long believed that a School on a plan different from most others in this country, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a **BOARDING SCHOOL for GIRLS**. With this view I have purchased the **FRENCH CREEK FARM**, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pike and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniences for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care. In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection. The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance. In restrictions respecting the kind of clothing intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter. The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school. Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and Globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to **Edward Stabler**, Alexandria, or to **EMMOR KIMBER**, 2d mo. 21.

Fan-ash Making.
METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expense in procuring the necessary preparations, and relies on public enterprise for success in the undertaking. Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as in town. **JAMES T. HOLLAND**, February 19.

District of Columbia.
County of Alexandria, ss. **ON** the petition of **WILLIAM HATTON**, an insolvent debtor, confined in the jail of Alexandria county for debt—Notice is hereby given to the creditors of the said William Hatton, that on the first Monday in May next, at the court-house of the said county, the oath prescribed by the act of Congress of the United States, entitled "an act for the relief of insolvent debtors within the District of Columbia," will be administered to the said insolvent, and a trustee appointed, unless sufficient cause to the contrary be then and there shown. Ordered, that this notice be advertised in both papers published in Alexandria, once a week for three weeks before the said first Monday in May next. By order of the hon. Wm. Cranch, ch'f judge of the United States Circuit Court for the District of Columbia. **G. DENEALE, C. C.** March 31.

Valuable Family Medicines.
JUST received, direct from the proprietors, the following valuable **MEDICINES**, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated. **Dr. Lee's Genuine (Worm) Bile-ious Pills.** Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—To guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in

one of these labels, with these words on the sides: "Lee's Genuine Worm-Bileious Pills," and on the end of the label the words, "Samuel Lee, proprietor, &c." and should any be offered for sale without said label on them, the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water. For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources. Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment. A certain and safe cure for that disagreeable complaint, as well as other eruptions of the skin. Price 37 1/2 cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Pills. For weak, and infirm constitutions. Price 37 1/2 cents a box.

Hickley's Infallible Remedy for the Piles. A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste. For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Throat Ache. Which, in almost every case, gives instant relief in that distressing complaint. Price 37 1/2 cents a bottle.

Cooley's Vegetable Elixir, for Coughs, Asthma, Consumption, &c. A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. Hich'd. H. Little; in Washington City, by Dr. David Ott; in Georgetown, by Dr. John Ott, Ohio, J. Linthum & Co. and Nathaniel Jewett.

James Kennedy & Son. RESPECTFULLY inform the public that they have just received from **LEE'S MEDICINE STORE**, No. 45, Maiden Lane, New-York, a fresh supply of the following valuable **MEDICINES**:

Hamilton's Worm Destroying Lozenges. Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or gripping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known. Worms which infest the human body are chiefly of four kinds viz.—The Tape or large round worm; the Ascariides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tania or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsion, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended **Hahn's ANTI-BILIOUS PILLS.** THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
